

Capital University

Alumni Portal

A Bridge Between the University and its Graduates

Faculty of Computers & Artificial Intelligence | Software Engineering Department

Malak Mohammed, Ahmed Ashraf, Konoza Mostafa, Yara Ashraf, Abdelrahman Magdy

Supervised By Dr. Helal Ahmed

Project Overview

Transforming university-alumni relations through a unified digital networking and administrative ecosystem.

KEY FOCUS AREAS

The Challenges

Communication Gap

Graduates often lose touch with their alma mater and fellow peers shortly after graduation, leading to a loss of valuable professional networks.

Data Fragmentation

Alumni records are often scattered across manual systems or disconnected social media groups, making it difficult for the university to track success.

Request Delays

Traditional methods for requesting official documents and certificates are slow, tedious, and require physical presence on campus.

Missed Opportunities

Fresh graduates struggle to find credible career guidance and professional job openings specifically tailored to their faculty's expertise.

Our Solutions

Networking

Foster a strong, verified graduate community for continuous knowledge sharing, professional collaboration, and mentorship.

Career Growth

An interactive job board linking graduates, students, and companies. Alumni and the university can directly publish and share job offers, internships, and events, building an integrated professional network within the campus community.

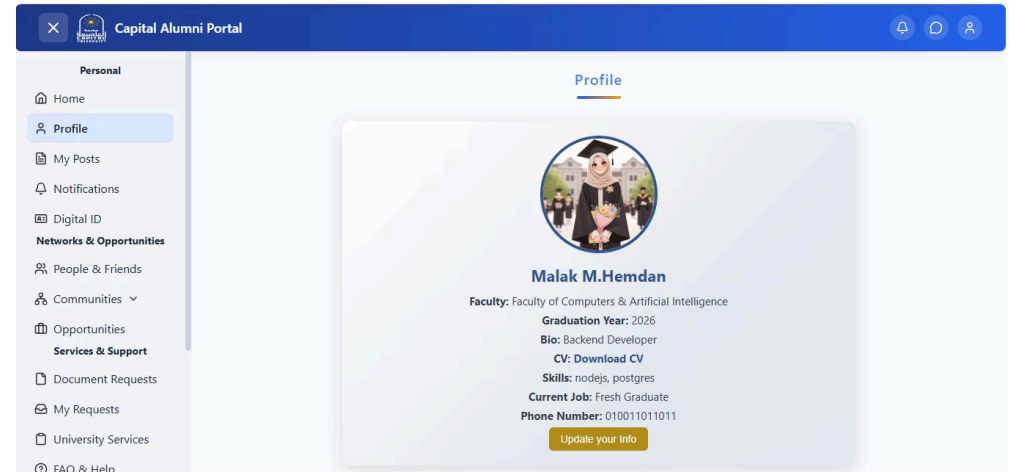

Digitization

Automate administrative tasks, enabling secure online document requests, streamlined approval flows, and digital graduation IDs.

ALUMNI EXPERIENCE

Alumni Portal Features

- ✓ **Smart Profiles:** Highlight graduation data, post-grad achievements, and professional skills in verified profiles.
- ✓ **Social Feed:** Exchange knowledge, post career updates, like, comment, and communicate in real-time.
- ✓ **Dedicated Communities:** Join tailored channels organized by graduation year, specific specialization, or industry.
- ✓ **Verified Digital ID:** Leverage a unique, QR-enabled university-verified card acting as physical graduation identity.

Administrative Power

Platform Analytics

Analyze critical platform metrics, including total active users, verification statuses, posts, and dynamic system interaction levels.

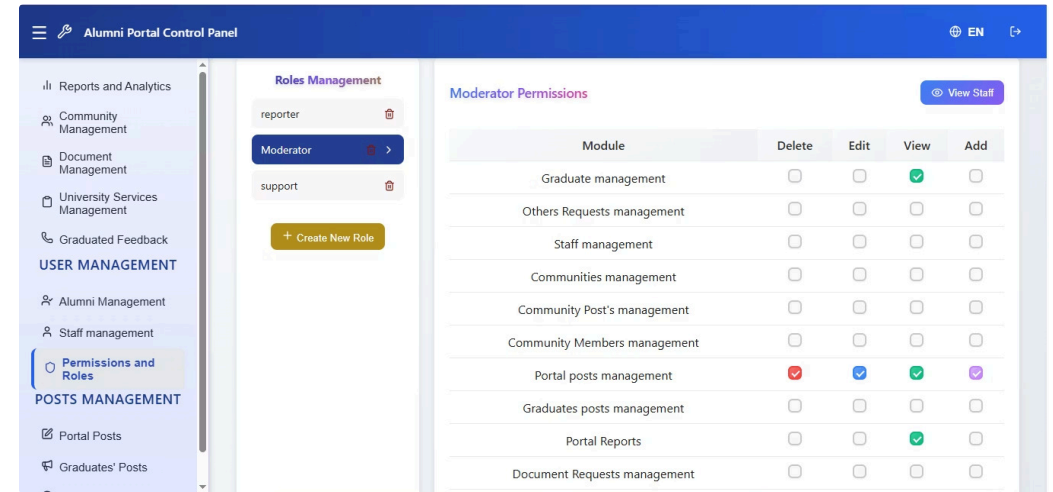

Account Verification

Validate graduates using an in-house developed Central Alumni Database System, serving as a unified integration gateway.

Document Approvals

Authorize official university documents, certificate prints, and transcripts in a secure, highly organized workflow.

System Workflow

A streamlined process from registration to accessing exclusive alumni services.

Registration

Graduates register online using their personal credentials, including National ID.

Interaction

Alumni gain full access to feeds, messaging, and exclusive job opportunities.

Verification

Admin cross-checks details via the internally-developed Central Alumni Database System to aggregate and link graduate data in one place.

Services

Users order verified paperwork or export digital student profiles.

Roles & Access Control

A clear hierarchy of permissions ensures data security and efficient operations within the portal ecosystem.

Ecosystem Features	Alumni (Graduates)	Staff / Department	Super Admin
Post Articles & Job Ads	✓	✓	✓
Request University Documentation	✓	❑	❑
Approve Requests & Verify Profiles	❑	✓	✓
Configure System Modules & DB Keys	❑	❑	✓

Technology Stack

Frontend Hub

Powered by React.js for modular and responsive interfaces.

Backend Services

Built using Node.js and Express for high-performance API routing.

Unified DB Layer

PostgreSQL combined with a custom Central Alumni Database System as a single point of integration.

Real-Time Systems

WebSockets powering interactive messaging and live notification threads.

Expected Impact

100%

Automation & Paperless Digital Workflows

85%

Request Acceleration

Reduction in document processing turnaround time.

3x

Alumni-Student Engagement

Increase in professional communication and support.

Unified Central Link

Central database supporting cross-service platform integration.

Conclusion

The Alumni Portal serves as vital digital infrastructure for Capital University. It bridges the gap between graduating years and ongoing professional success while successfully modernizing administrative tasks through standard Software Engineering practices.

Future Scope: AI-driven vacancy matching & Native Mobile Apps.

Thank You!
