Dr. Helal Ahmed Suleiman

Project Overview

Transforming university-alumni relations through a unified digital networking and administrative ecosystem.

The Challenges

Communication Gap

Graduates often lose touch with their alma mater and fellow peers shortly after graduation, leading to a loss of valuable professional networks.

Data Fragmentation

Alumni records are often scattered across manual systems or disconnected social media groups, making it difficult for the university to track success.

Request Delays

Traditional methods for requesting official documents and certificates are slow and require physical presence on campus.

Missed Opportunities

Fresh graduates struggle to find career guidance and job openings specifically tailored to their faculty's expertise.

Key Objectives

Networking

Foster a strong community for knowledge sharing and mentorship.

Career Growth

Provide a dedicated job board for alumni and corporate partners.

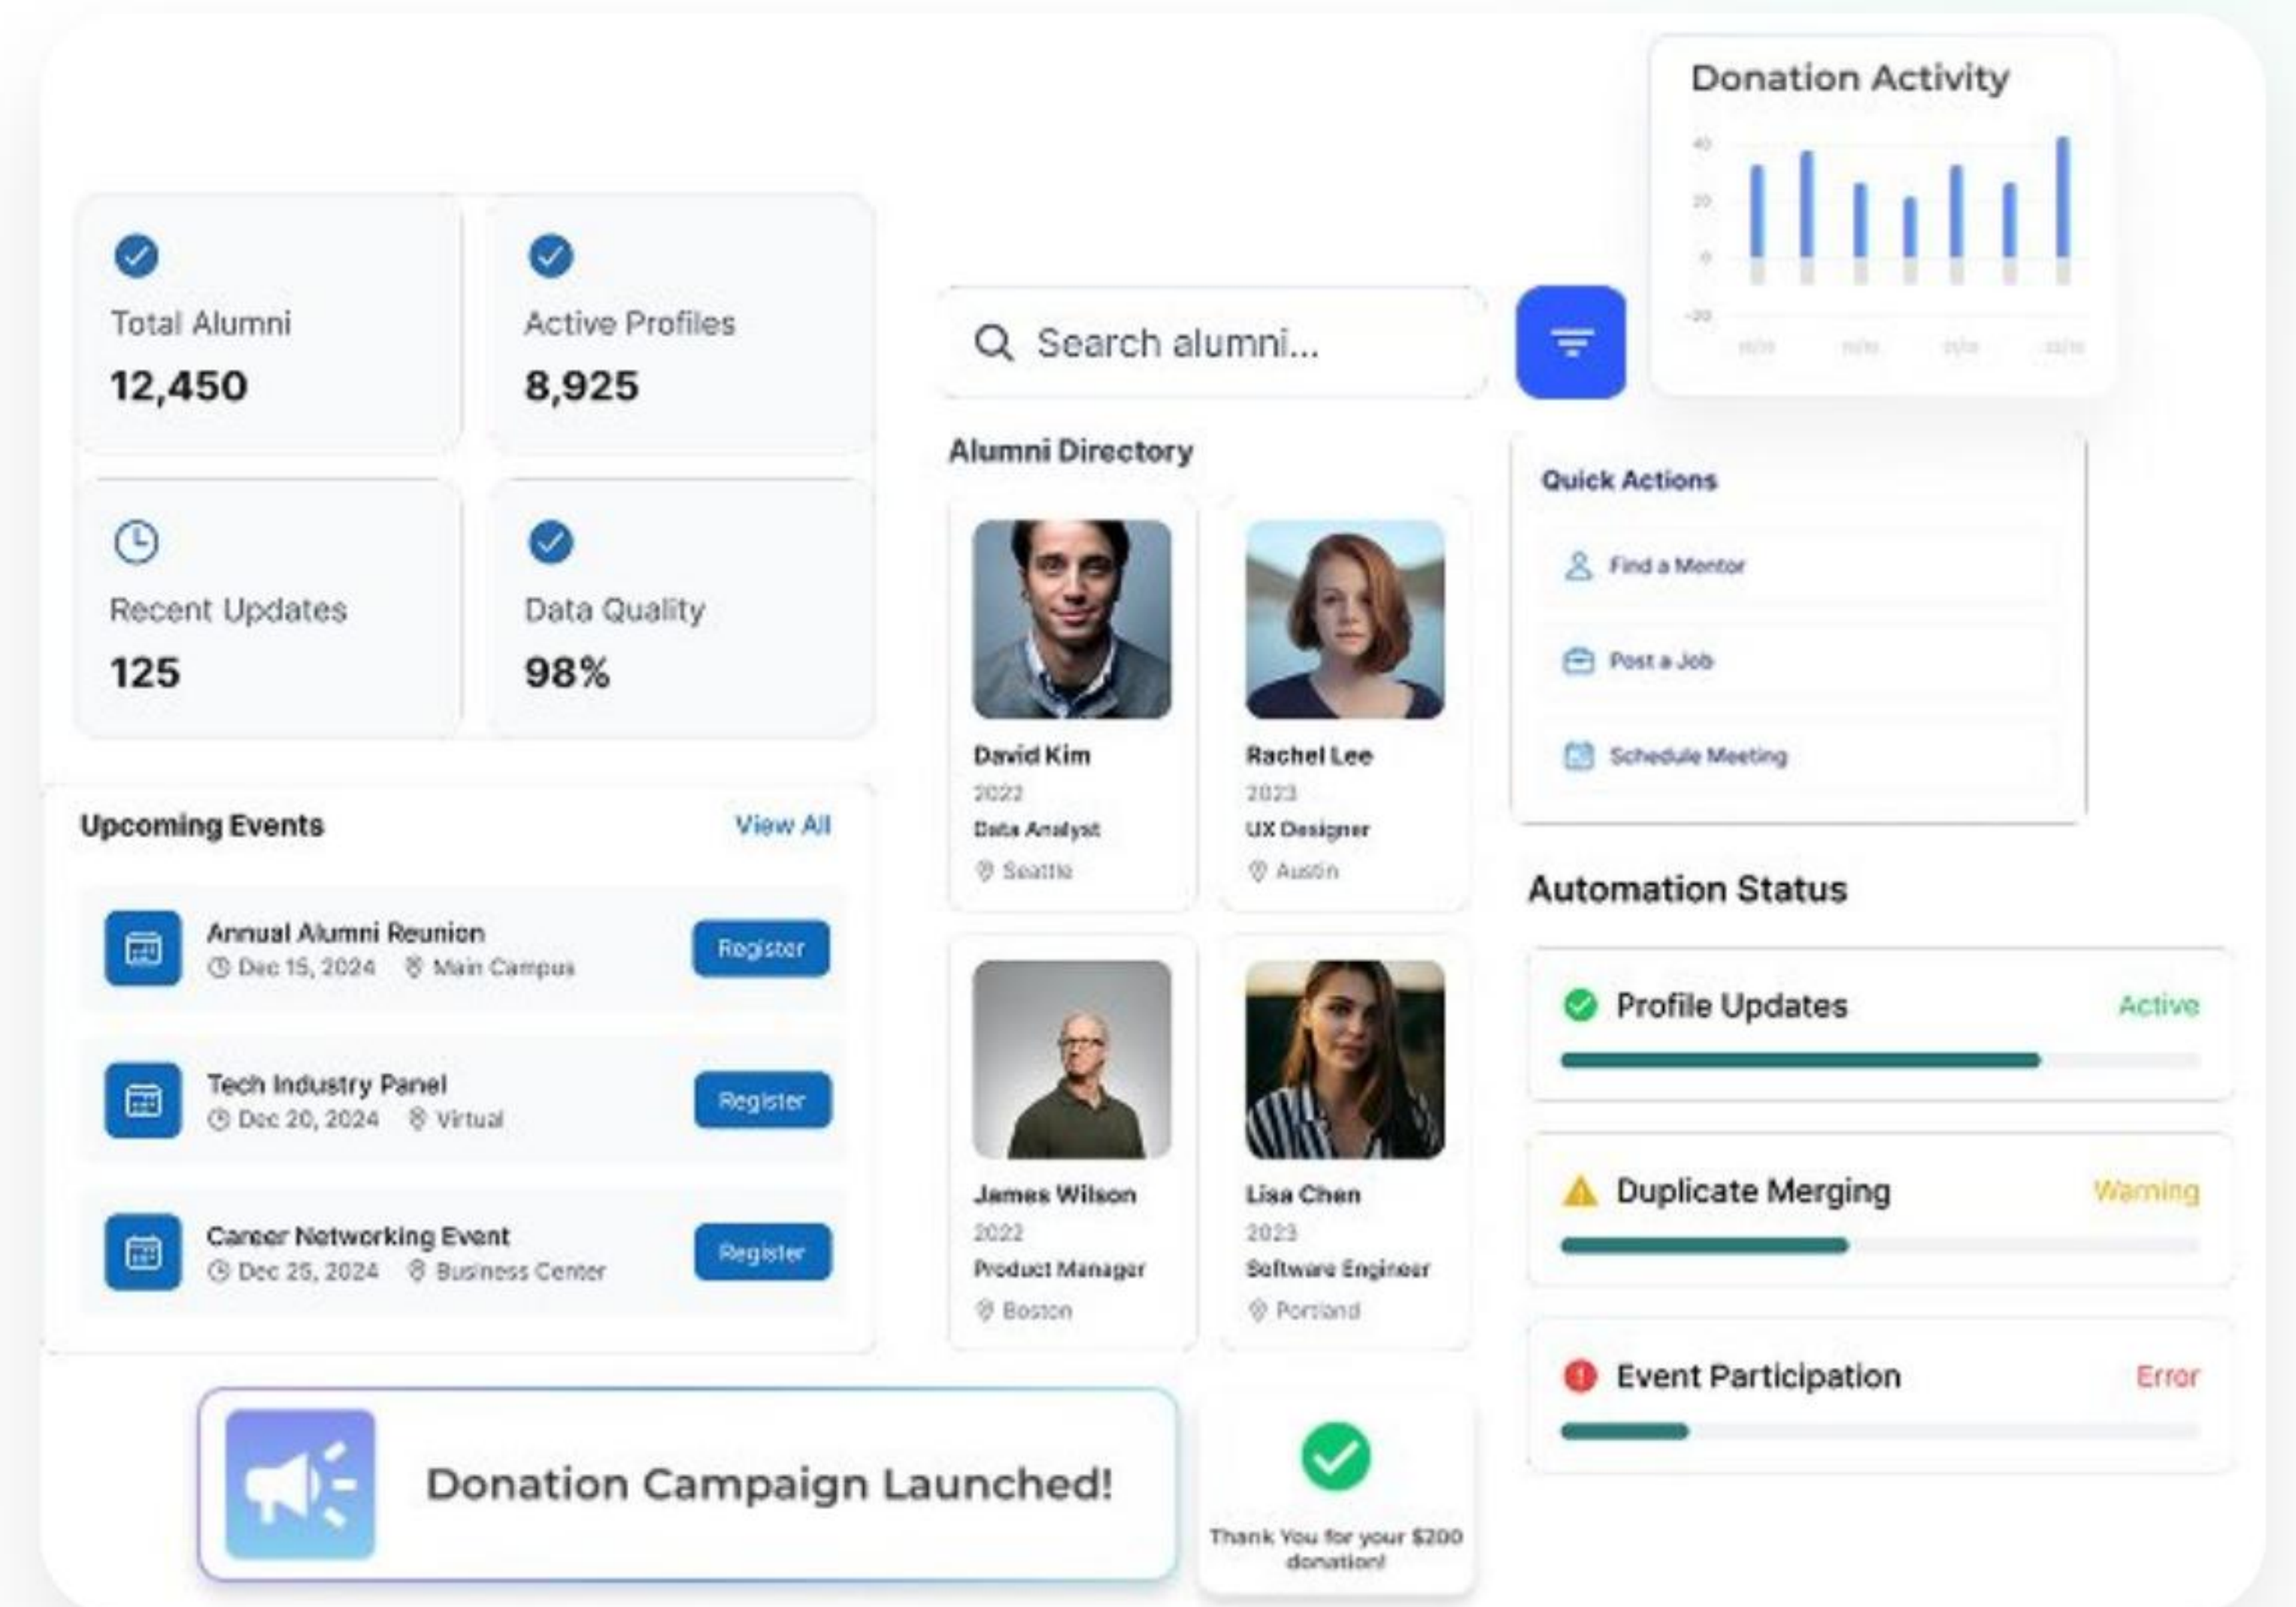

Digitization

Enable secure online document requests and digital identification.

Alumni Experience

- ✓ **Smart Profiles:** Manage professional data and achievements.
- ✓ **Social Interaction:** Share posts, comments, and media.
- ✓ **Communities:** Join groups based on batch or specialization.
- ✓ **Digital ID:** Faculty-verified digital graduation identity.

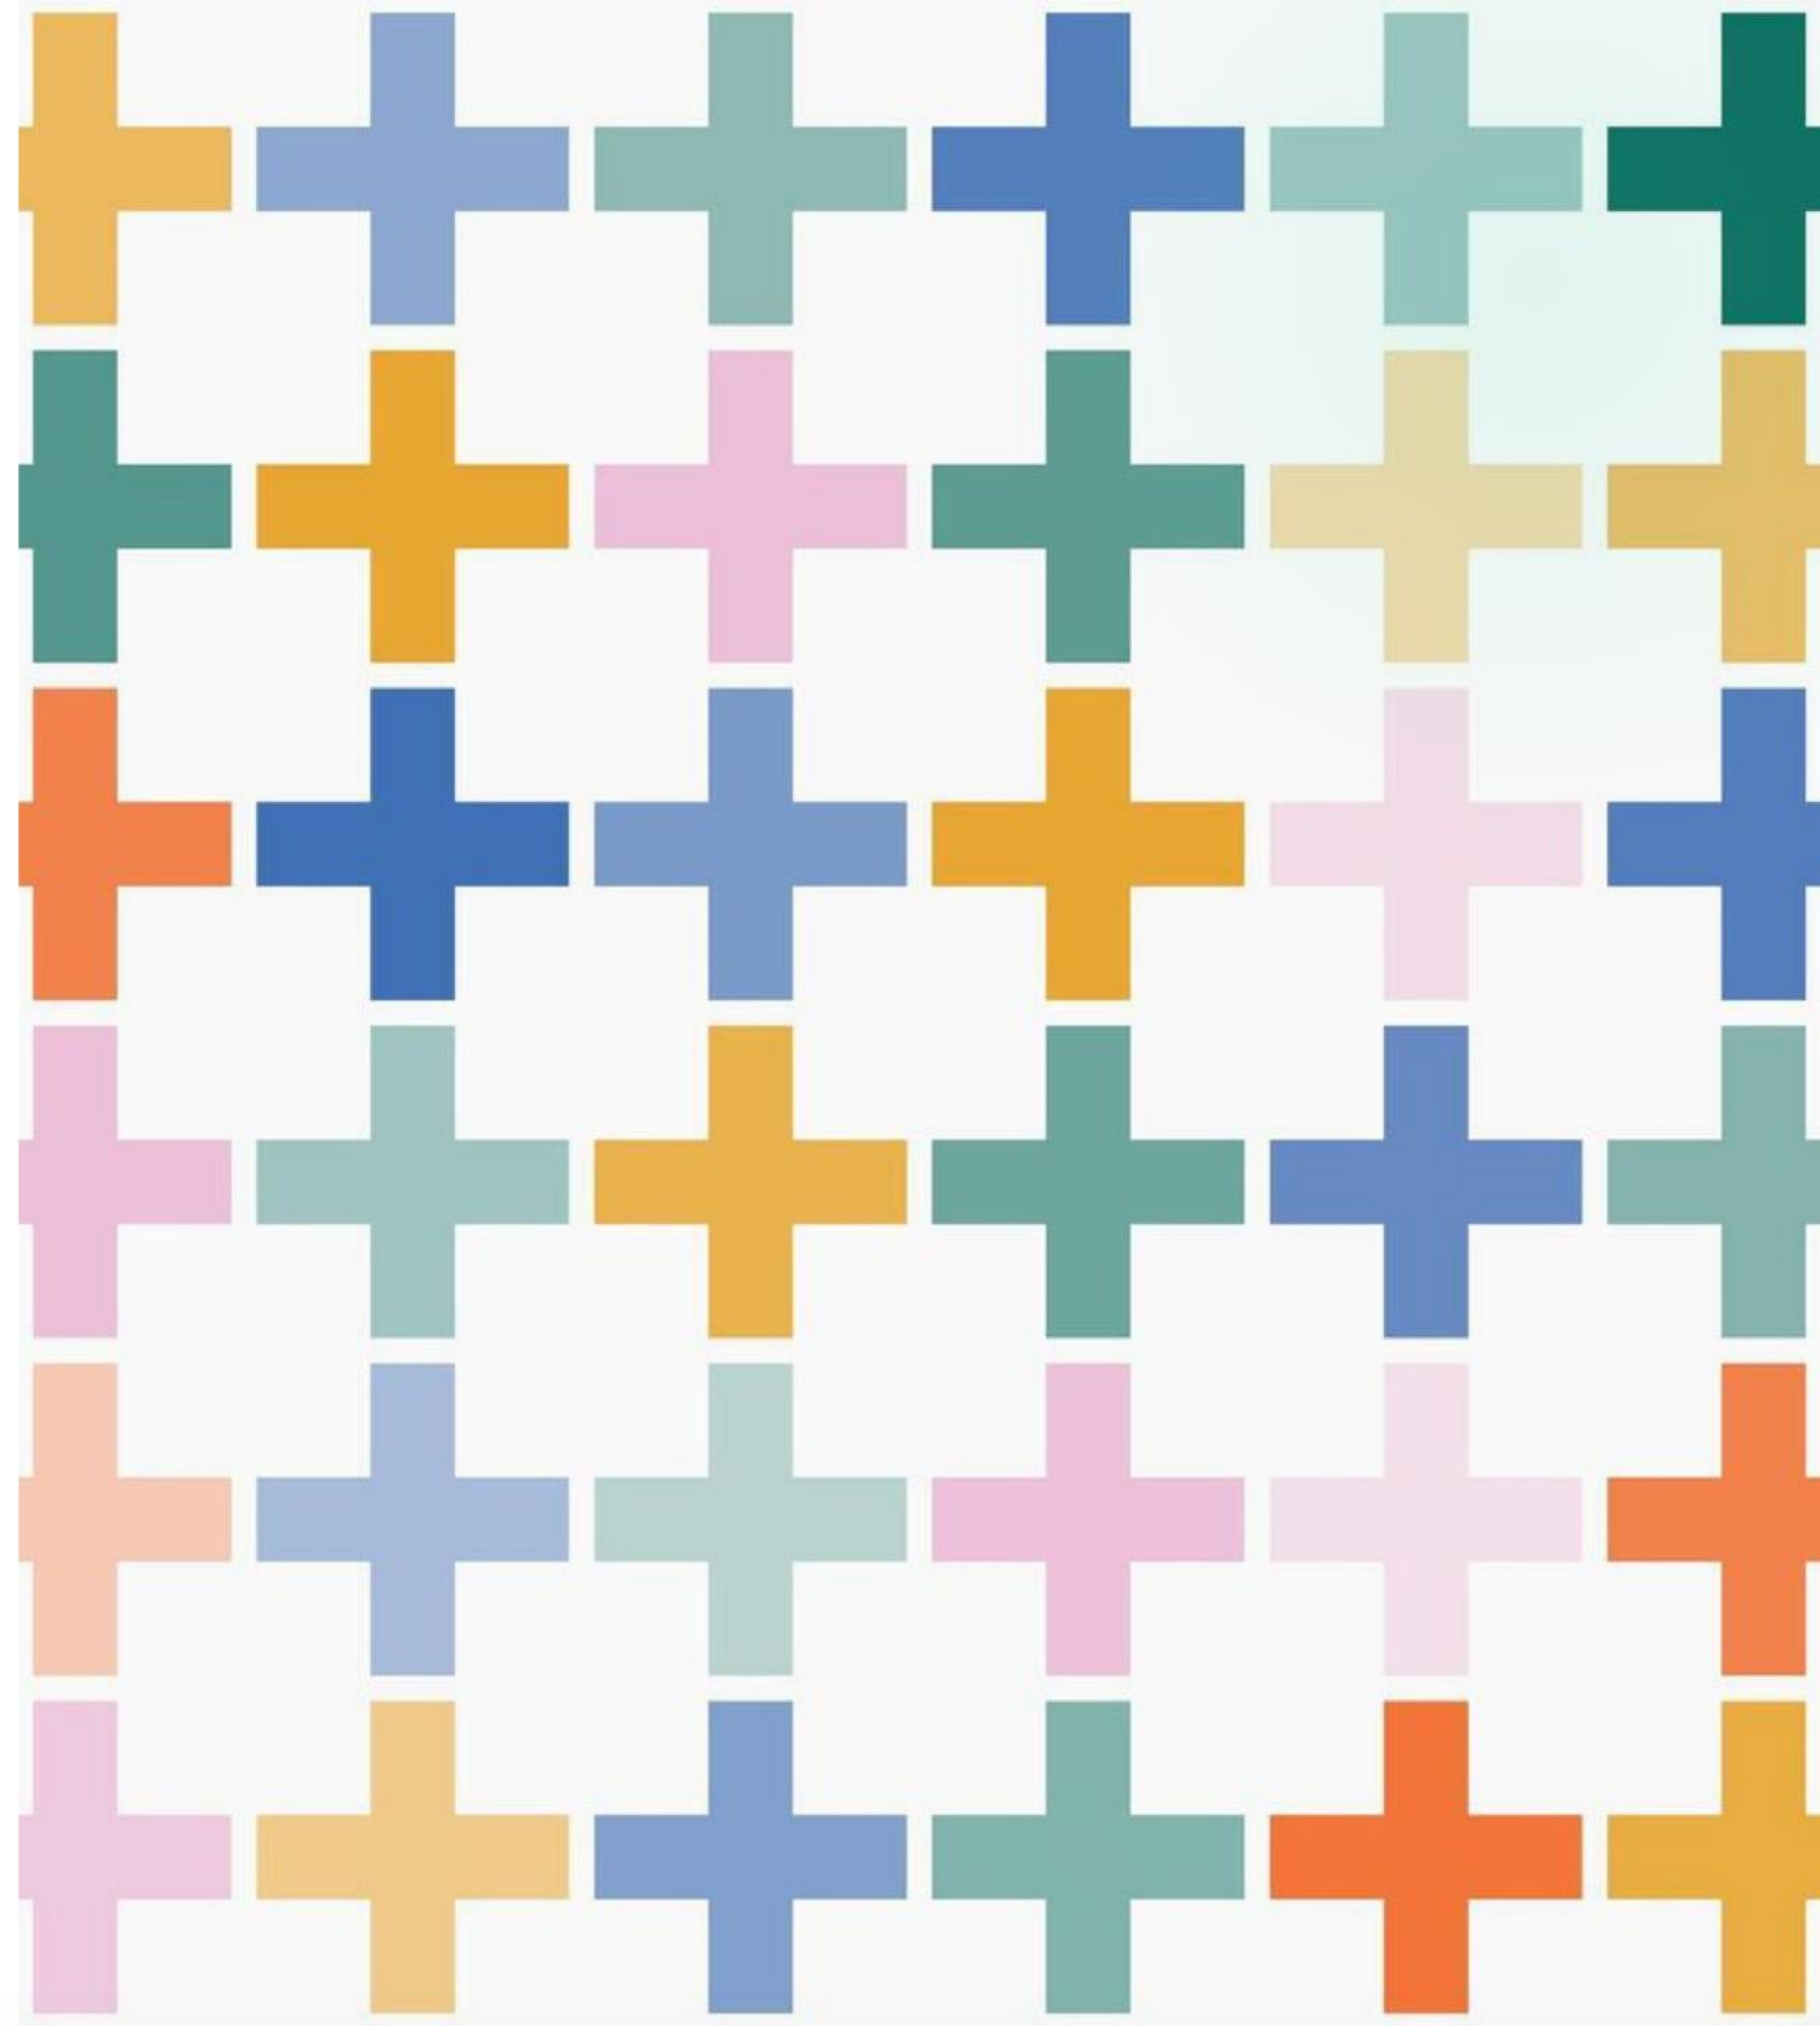

Administrative Power

The Admin Dashboard provides total control over the portal's ecosystem, ensuring security and quality.

📊 **Real-time Analytics:** Monitor engagement.

👤 **Account Moderation:** Verify new alumni.

✅ **Document Approvals:** Process requests seamlessly.

System Workflow

Registration

New graduates sign up with student credentials.

Verification

Admin reviews data against faculty database.

Engagement

Alumni gain access to posts, jobs, and networking.

Service

Users request docs or renew digital IDs.

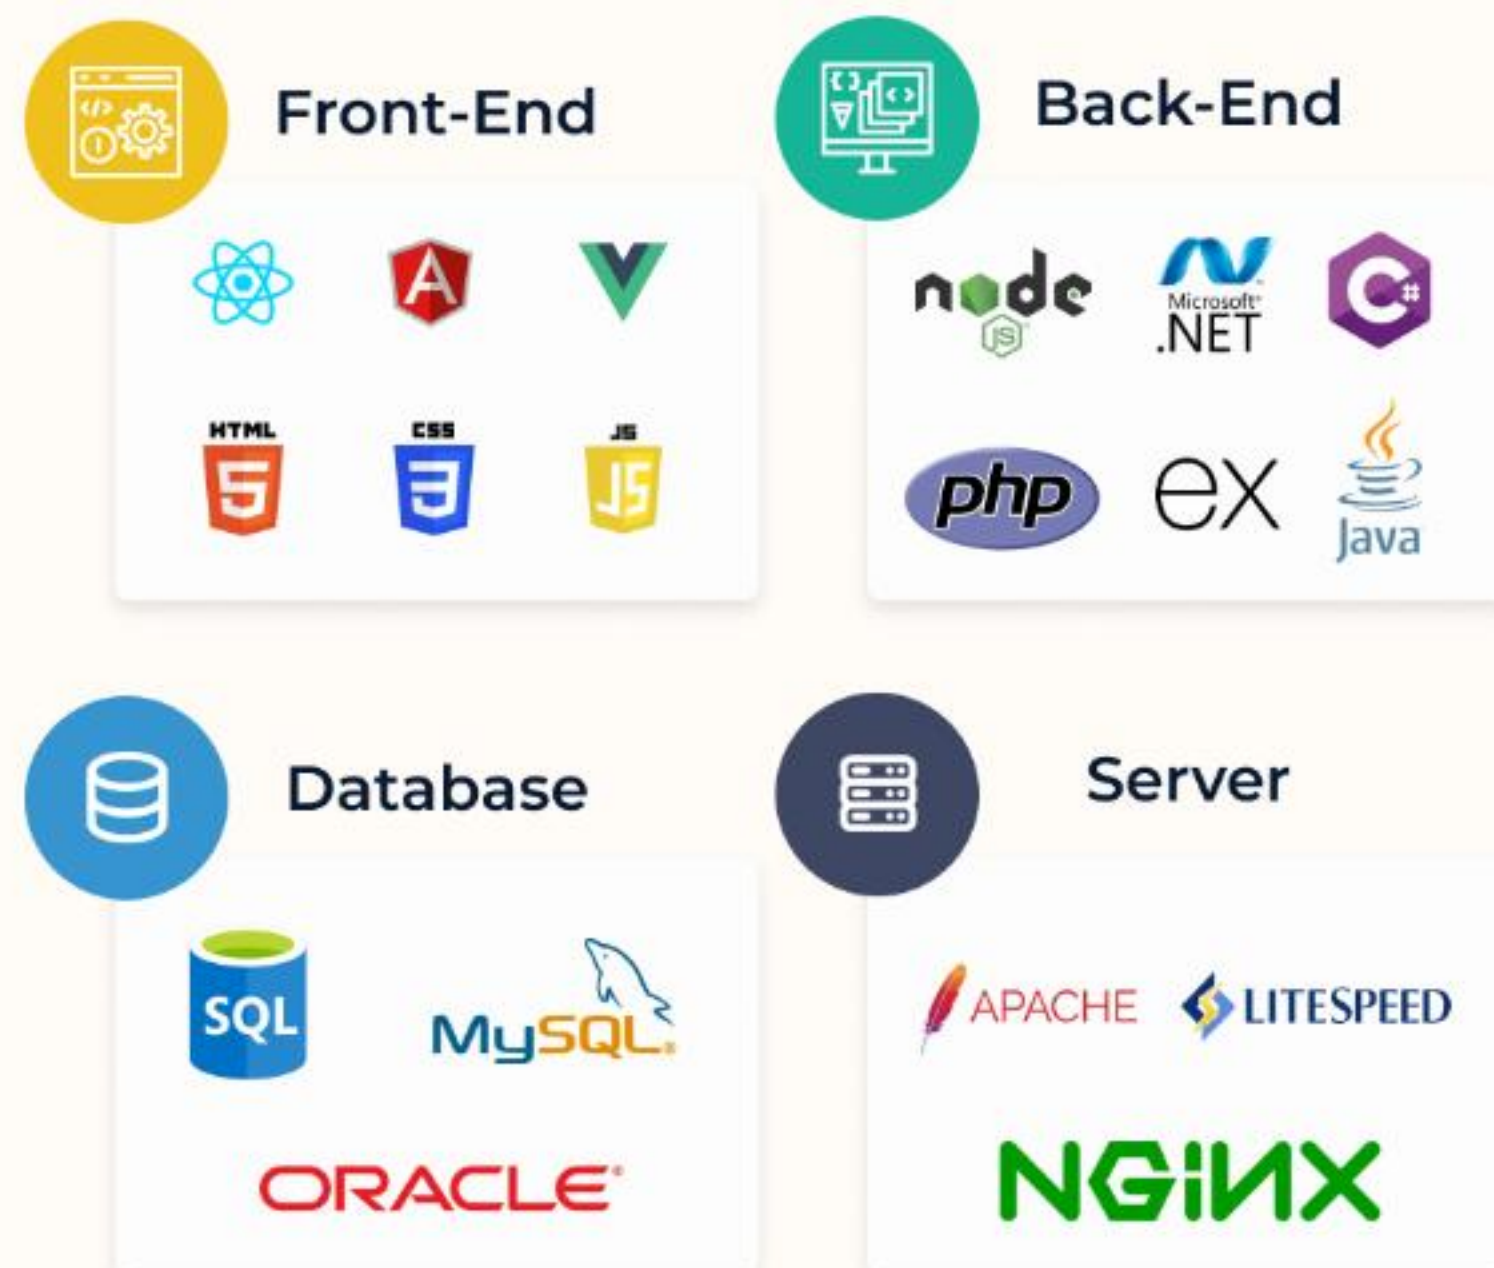

Roles & Access Control

Feature	Alumni (Graduates)	Staff / Dept	Super Admin
Post Content	✓	✓	✓
Request Documents	✓	✗	✗
Approve Requests	✗	✓	✓
System Config	✗	✗	✓

Technology Stack

What is a Web Development Stack?

Frontend: React.js & Tailwind CSS

Backend: Node.js / Express.js

Database: SQL Server / PostgreSQL

Real-time: WebSockets (Chat & Notifs)

Expected Impact

100%

Digital Service Automation

85%

Reduction in Document Request Time

3x

Increase in Alumni-to-Student Mentorship

Conclusion

The Alumni Portal serves as a vital digital infrastructure for Capital University, bridging the gap between academic years and professional success while streamlining administrative tasks through modern software engineering practices.

Future Work: AI-driven career matching & Dedicated Mobile App.

Thank You!
