Slide 4 – Introduction

Alumni Portal is a digital platform designed to connect graduates with their university and fellow alumni.

The system provides networking opportunities, document services, communities, real-time communication, and career support through one centralized platform.

Slide 5 – Problem Statement

Current Challenges

- Lack of communication between graduates and university
 - No centralized alumni platform
 - Difficulty tracking alumni activities
 - Manual document request procedures
 - Limited networking and career opportunities
-

Slide 6 – Project Objectives

- Strengthen alumni-university relationships
 - Enable professional networking
 - Facilitate document requests
 - Provide job opportunities
 - Support alumni communities
 - Enable secure communication
 - Centralize alumni services
-

Slide 7 – Target Users

Alumni (Graduates)

University Administration

Staff Members

Community Managers

Slide 8 – Planning & Analysis

Project Planning Approach

- Requirement Gathering
 - System Analysis
 - UI/UX Design
 - Development
 - Testing
 - Deployment Preparation
-

Slide 9 – Functional Requirements

- Registration & Login
 - Profile Management
 - Posts & Interactions
 - Communities
 - Real-Time Chat
 - Notifications
 - Document Requests
 - Digital Alumni ID
 - Administration Dashboard
-

Slide 10 – Non-Functional Requirements

- Security
- Scalability

- Reliability
 - Availability
 - Performance
 - Usability
-

Slide 17 – Alumni Features

- Profile Management
 - Create Posts
 - Like & Comment
 - Join Communities
 - Friend Requests
 - Real-Time Chat
 - Notifications
 - Digital Alumni ID
 - Request Documents
-

Slide 18 – Admin Features

- Dashboard
 - User Management
 - Staff Management
 - Community Management
 - Posts Moderation
 - Document Approval
 - Reports & Analytics
 - Role Management
-

Slide 19 – Security Features

- JWT Authentication

- Role-Based Access Control (RBAC)
 - Protected APIs
 - Secure User Data Storage
 - Permission-Based Access
-

Slide 20 – Testing

Testing Types

- Unit Testing
 - Integration Testing
 - System Testing
 - User Acceptance Testing
-

Slide 21 – Test Summary

Number of Test Cases Executed

Pass Rate

Failed Cases

Resolved Issues

Slide 22 – Landing Page

Insert Screenshot

Explain:

- Welcome Section

- Navigation
 - Quick Access Features
-

Slide 23 – Alumni Dashboard

Insert Screenshot

Explain:

- Personal Feed
 - Communities
 - Notifications
 - Recent Activities
-

Slide 24 – Admin Dashboard

Insert Screenshot

Explain:

- User Statistics
 - Requests Monitoring
 - System Management
-

Slide 25 – Digital Alumni ID

Insert Screenshot

Features:

- QR Code
- Unique Identification

- Verification Support
-

Slide 26 – Real-Time Chat & Notifications

Insert Screenshot

Features:

- Instant Messaging
 - Real-Time Updates
 - User Interaction
-

Slide 27 – Results

Project Achievements

- ✓ Improved alumni connectivity
 - ✓ Centralized alumni services
 - ✓ Enhanced communication
 - ✓ Simplified document requests
 - ✓ Digital alumni identity
-

Slide 28 – Future Work

- Mobile Application
- AI Job Recommendation System
- Alumni Events Management
- Career Mentorship Platform
- Advanced Analytics Dashboard

Slide 29 – Conclusion

The Alumni Portal successfully bridges the gap between the university and its graduates by providing a secure, centralized, and interactive platform that enhances communication, networking, and alumni services.
